THE REAL PROPERTY.

in Ajman

This lovely emirate of the United Arab Emirates offers its residents nothing less than a haven to unwind. Its laid back approach to life is a far cry from the loud and maddening pace.

Known for its diving sites and rolling sand dunes, Ajman has grown into an ideal residential sanctuary for people seeking the best of both worlds.

Ajman also moves up a couple of notches in the real estate sector because it is the only emirate that currently offers its residents the opportunity to actually own property - where every owner has their title deed registered under their own name in the Lands Department.

Cruising from Ajman city from Sharjah brings you into the Corniche, with a fine sandy beach on one side and the city spread out on the other. From building traditional dhows to the larger trading booms, Ajman is also known for the speedsters that take part in the Dubai Powerboat Meets.

The emirate's mountain villages are Manama near Dhaid - which is the nearer - and Masfut which is next to Hatta, a part of Dubai emirate. Manama, which literally means the "sleeping place" also has a small old fort while Masfut is known for its colorful marble.

Today, the four stately towers of Goldcrest Dreams offers you all this and more!
